**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

**Requirements in the First Ten Years\***

**What and When to File:**

- ***First Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- ***Second Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

**Requirements in Successive Ten-Year Periods\***

**What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

**Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.**

**NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.**

★★★★★ Exactly What I Expected...Top Quality

Reviewed in the United States on January 29, 2024

Size: 300 Each | [Vine Customer Review of Free Product](#) ([What's this?](#))

This set of 300 toploaders and penny sleeves from BCW are exactly as advertised. They are industry standard quality and fit my old Topps baseball cards perfectly. The top of the loader has a little split that really makes it easy to slip in your card. That's important. You don't want to manhandle your card getting it into place.

The acrylic and sleeves are perfectly clear. A great product to protect my collection of sports cards. Recommended. Five stars.

★★★★★ Good price for combo pack of sleeves and toploaders.

Reviewed in the United States on January 29, 2024

Size: 300 Each | [Vine Customer Review of Free Product](#) ([What's this?](#))

BCW is one of my go-to vendors for bulk purchasing sleeves, toploaders, sheets, etc.. for card collecting.

This is the first time I've seen them offer their combo packs on Amazon, but they've offered them direct, for years now.

Pricing is good, quality is always good. Definitely recommended.

I use these for Warmachine/Hordes cards and they are a little too big for that purpose. But otherwise they do exactly what I want by keeping my cards safe and dry.

Great top loaders and card sleeves. Good value for price and quantity. The top loaders are also good. Only a few have marks/glue resin on them. My only complaint is that the packing quality is not the best. 4 of my top loader packs only had 24 instead of 25. Not the biggest deal, but kind of annoying. Received 200 sleeves and only 196 top loaders. Curious if this happened to anyone else?

Showed up timely and the product is as I expected. Penny sleeves are thin and the right amount. Top loaders could use a bit more sturdiness, but for the price... Who would complain? 10/10 will buy again!

I absolutely recommend this bundle. I love BCW products - I've been using them for years and have never had an issue with keeping my collection clean and secure. The top loaders are a great value and a great quality - the penny sleeves included in this deal are a must have for slipping your cards in before putting them in a top loader. If you're looking for a great option for protecting your card collection OR mailing them because you've sold them or what to trade by mail - you've found it. I've sent hundreds of cards by mail in these products and haven't had a single one damaged.

I was worried when first reading some reviews and not knowing if theyd work for my sports and non sports cards but these are awesome. Exactly what I needed. i have hundreds of cards that are more than commons and wanted to place all in toploaders so for the price it worked out perfect. They came all in one piece none broken or chipped and have been a good fit with ease sliding in to for me. Ill be buying more.

We get these all the time normally good but this last batch was dirty and had shards of plastic inside of the protector defeating the purpose as did scratch a few cards! Dust and debris on inside and outside of these made them useless but as we had opened them we can't send back so now we're trying to clean these so we can at least put less rare cards inside.

I bought these bc of 20pt instead of typical 25pt, hoping for a tighter fit on slim cards. These seem sturdy but honestly fit thicker Topps Chrome cards the best. Cards will slide on slim cards like Dcore 1996. Sounds pretty but this year BCW 20pt pack holder is in fact thicker than previous years BCW 20pt. I'd guess it seems like 27pt instead of typical 25pt.

I need these for shipping TCG cards. These have significantly less plastic debris than the Ultra Pro that I have historically purchased. I had to order these from Amazon to restock quickly when Ultra Pro was unavailable for a few days. I have now switched to these as my main hard protectors as I have only thrown away two or three with stuck debris.

This item is a great value for the money. The top loaders are pretty sturdy as well. They came just as described in the item listing. I can most definitely say, I will be purchasing again.

Great product that does exactly what I need it to do.

There is some shaved plastic still inside the hard plastic card sleeves but a quick blast of air or simply wiping the inside is fine.

 These are exactly as advertised. They fit a pretty big card in them with ease. The quality and durability of these cards is definitely A-1. Go with this brand for all your toploader needs.

**FITS LARGER KPOP CARDS!**  
 I've been searching for a really long time for toploaders I can use for my kpop merchandise photocards and mini PCs! These are able to fit the larger kpop photocards; just make sure to also use a non-PVC soft sleeve to protect your cards as well because these toploaders are made with PVC, and so your card doesn't move around inside as much.

The cards slip in really easily—the gap at the bottom corners makes it easier to slide the cards in, so double sleeved cards should fit in a little easier in these.

The toploaders weigh 0.05oz each; a lightweight way to add extra protection when mailing/trading cards.

**CONDITION UPON ARRIVAL:**  
 A couple toploaders arrived with scratches on them, but that seems to be pretty normal for when you buy a stack of toploaders. The edges don't look super clean, but they did not have dust or debris—more like

 Not one to leave reviews but i had a hell of a time trying to find a product to fit MTG Planchase cards and this is the best i could do. I would have thought that after 10 years or so of this planechase cards being used that their would be more but this is it.

 most other more common sizes of toploaders were too small or too big, these are perfect size for all my plush tags! they are also nice and thick so i dont have to worry about the tag getting warped with my plush sitting on top :)

This high-quality PVC does not migrate, so rest assured it will not harm your important documents. 8½x11 is the size of a standard sheet of paper, so each topload holder has a variety of uses, from photos and prints to work papers. No matter what type of document it is, these toploaders provide maximum protection and visual appeal.

These are great for those papers (phone lists, addresses, calendars of events) we look at many times a week. They keep things clean and accessible. I'm now retired, but I use them for password lists, doctors' phone numbers, account information, and recipes, etc.). Excellent "Glad I learned about these" desk accessories.

Loose fit! I put my cards in there and they float and move around a lot; so I'd suggest buying thick penny sleeves if you were to buy these.

These top loaders are very durable and worth it for the price. However it's way larger than a photo card so just know if you plan on decorating top loaders, there will be a lot of empty space.

BCW's 8½x11 topload holder is made with rigid PVC that contains no plasticizers or stearates, like the rest of our toploaders. This high-quality PVC does not migrate, so rest assured it will not harm your important documents. 8½x11 is the size of a standard sheet of paper, so each topload holder has a variety of uses, from photos and prints to work papers. No matter what type of document it is, these toploaders provide maximum protection and visual appeal.

**BCW hard plastic card holders with penny sleeves.**

What a great buy on a top quality product. If you collect any type of cards then these are a great yet inexpensive investment to keep your collecting protected. I ordered the 100 holder set with the sleeves. Was so happy with the quality I ordered 100 more the next day.

**Excellent Card Protectors for Shipping and Storage**

These things are super thick and perfect for shipping and storage, while also being reasonably cheap, even in small bulk quantities, such as, 100 per purchase. Bear in mind that each set of 25 includes 40 rigid Hard Plastic Sleeves. So, if you order 100, then it'll come with 40 sleeves. Luckily, I found me a really cool person who sells them in lots of 100 and includes an additional 100 Soft Sleeves, as well as a really great deal for a great product by BCW.

**Quick easy affordable**

I've bought from quite a few small shops on here for toploaders and sleeves and this one is by far the most reliable for bulk. Every time I order it's here within the week and ready for card storage. And one of the few I've found with not as messed up toploaders.

**Quality product**

If possible, an overhead or top view of the toploader would help visually so that the buyer could get a better idea that a certain card would fit. Actual size is good, but the added view would be very helpful especially when trying to figure out if a thicker card, such as a jersey or patch card, would fit.

These are perfect, wouldn't even consider buying another brand. I use these specifically to display ACE ATC cards, and I mount them in the wall with small command strips. Minimal glare. Several of my friends also use these for their magic cards.

Great value with this product.

In my opinion these toploaders are the same quality as the standard toploaders BCW sells. Just with a little more buffering. I've only been 1/4 of the way through the case and have had multiple cracked or chipped not so EIU toploaders. In the value side it is a good deal.

Where's the hanging bit?

by [chamberof](#) Apr 30, 2018  
These used to come with a piece on the back so you could hang it on a wall if you wanted to. Now, they got rid of it. Chee y move. What do you do with them now, stand it in a corner?

perfect

These are perfect, wouldn't even consider buying another brand. I use these specifically to display ACE ATC cards, and I mount them in the wall with small command strips. No glare. Several of my friends also use these for their magic cards.

reat value with this product.

In my opinion these toploaders are the same quality as the standard toploaders BCW sells. Just with a little more buffering. I've only been 1/4 of the way through the case and have had multiple cracked or chipped not so great toploaders. On the value side it is a good deal.

 Thank you for my recent purchase, I used the Toploaders to finally complete my 2020 Panini Hoenni Football 200 Card set with Joe Burrow & Justin Herbert. Now every card is protected.

### Top loader

Top loaders are in good condition, however there seems to be a lot of plastic shavings inside the loaders and could potentially ruin sports cards. But, they are still a good buy. Thanks

Item description from the seller

Use the dropdown to choose the size of toploader or penny sleeves that you'd like to purchase. Choose your quantity, and then click "Add to Cart." Then you'll be able to choose an additional size toploader or penny sleeves pack following this same process.

The dropdown shows the maximum thickness of a card that the toploaders will hold along with how many toploaders come in a pack. Penny Sleeves are in packs of 100 and you have a choice of sleeves for standard thickness cards or for thick cards.

For example, "BCW 59 point 1.5 millimeter 25 count package" means that it's BCW brand, package of 25 holders with each holder fitting cards that are maximum 1.5 millimeters in thickness. The 1.5 millimeters is also expressed in a point system being 59 points in this case. For reference a standard trading card is 20 points in thickness.

[T FA AB E E IEW](#)**BCW hard plastic card holders with penny sleeves.**

What a great buy on a top quality product. If you collect any type of cards then these are a great yet inexpensive investment to keep your collecting protected. I ordered the 100 holder set with the sleeves. Was so happy with the quality I ordered 100 more the next day.

**Excellent Card Protectors for Shipping and Storage**

These things are super thick and perfect for shipping and storage, while also being reasonably cheap, even in small bulk quantities, such as, 100 per purchase. Bear in mind that each set of 25 is 1 Box of rigid Hard Plastic Sleeves. So, if you order 100, then it'll come with 4 boxes. Luckily, I found me a really cool person who sells them in lots of 100 and includes an additional 100 Soft Sleeves, as well. Really great deal for a great product by BCW

**Quick easy affordable**

I've bought from quite a few small shops on here for toploaders and sleeves and this one is by far the most reliable for bulk. Every time I order it's here within the week and ready for card storage. And one of the few I've found with not as messed up toploaders

Item was exactly what was advertised. It was sent as soon as possible and I'm extremely happy with the delivery time. The book was overly wrapped in bubble wrap and was very protected. Great shipping rates. I feel other sellers are overcharging and making a profit off of shipping, but not this seller. Very fair prices and shipping fees. I would definitely buy from this dealer, again.

Fast shipping and cards were packaged well so that is didn't get damaged during the shipping process. All of the cards were in great condition as described. Plus, the seller automatically combined shipping and kindly refunded the difference. I would definitely buy from this seller again.

Awesome seller I had done multiple cards and submitted the order. I went to contact him later to see about consolidating the shipping and he had already done that and provided a refund. Great communication. The cards came packaged extremely well, best I have seen from anyone I have dealt with prior. Can't say good enough things. Appreciate the extra too.

The Ne t Si e up from Standard.  
reat product. If you're looking for a top loader for card protection. This is the ne t si e up from your standard trading card.

I have converted my ukemon card collection from 20pt standard holders to BCW 59pt toploaders. I found the BCW 59pt toploaders to be better quality and more convenient to use, especially with penny sleeves.

Top Loader

Top loaders are in good condition, however there seems to be a lot of plastic shavings inside the loaders and could potentially ruin sports cards. But, they are still a good buy. Thanks

These are perfect, wouldn't even consider buying another brand. I use these specifically to display ACE ATC cards, and I mount them in the wall with small command strips. Minimal glare. Several of my friends also use these for their magic cards.

Apr 04, 2018**reat value with this product.**

In my opinion these toploaders are the same quality as the standard toploaders BCW sells. Just with a little more buffering. I've only been 1/4 of the way through the case and have had multiple cracked or chipped not so great toploaders. On the value side it is a good deal.

**BCW hard plastic card holders with penny sleeves.**  
What a great buy on a top quality product! If you collect any type of cards, then these are a great yet inexpensive investment to keep your collecting protected. I ordered the 100 holder set with the sleeves. Was so happy with the quality I ordered 100 more the next day.

**Excellent Card Protectors for Shipping and Storage**  
These things are super thick and perfect for shipping and storage, while also being reasonably cheap, even in small bulk quantities, such as, 100 per purchase. Bear in mind that each set of 25 is 1 box of 100 Hard Plastic Sleeves. So, if you order 100, then it'll come with 4 boxes. Luckily, I found me a really cool person who sells them in lots of 100 and includes an additional 100 Soft Sleeves, as well! A really great deal for a great product by BCW

**Quick easy affordable**  
I've bought from quite a few small shops on here for toploaders and sleeves and this one is by far the most reliable for bulk. Every time I order it's here within the week and ready for card storage. And one of the few I've found with not as messed up toploaders

**Quality product**  
If possible, an overhead or top view of the toploader would help visually so that the buyer could get a better idea that a certain card would fit. Actual mm size is good, but the added view would be very helpful especially when trying to figure out if a thicker card, such as a jersey or patch card, would fit.

Worked Well with my postcard Collection  
Was very easy to put my postcards inside the holders. I found them sturdy and since I like to look through the various cards I have, it makes it easy to just flip through them without damaging the cards. I went with the larger size this size so I could have all of my postcards in the same size holder. The smaller cards fit right in.

Great product at a great price  
These 4-6 plastic protectors are awesome. As a collector of postcards and small paper memorabilia, I can say that I'm very pleased. After buying many different kinds of protectors at various prices all higher than these, I'm glad I finally found protectors at a steal. Thank you and my re-order will be in soon!

I would give 5 stars e. cept the price has gone up so much in the last year it makes the decision to buy a lot harder, when I used to use for all my comics now I only get them for the most important issues

#### SHIPPING

We are always working hard to ensure your package arrives as soon as possible. Please understand that some factors like weather, high postal traffic, and the performance of shipping companies are outside of our control.

We offer free shipping to the lower 48 states and ship within 2 business days of payment, usually sooner. We do not accept P.O. Boxes. Please provide a physical address.

For shipping outside of the continental USA, we only use eBay's Global Shipping Program. The item is shipped to KY and then sent to the rest of the world. International customers are responsible for all duties and taxes. Continue to check out in order to calculate costs for shipping the item to your country. Messages regarding eBay's Global Shipping Program MUST be directed at eBay EXCLUSIVELY.

#### RETURNS

We offer a 30-Day Return Policy on items which you are not completely satisfied with. You have the option for a full-refund or an exchange of the item. No returns are available on items shipped outside of the USA.

#### CUSTOMER SATISFACTION

We try our very best to make sure every customer is completely satisfied. If there's a problem, message us! We're happy to help.

#### BCW Archival rigid Sleeves

I have always used the BCW products and emphasized their usage to protect and preserve postcards, photos etc. Even the various sizes that are available will fit anything small to large. I use one to even hold my auto registration paperwork in the car. I also have donated many of their products to the library archives for preserving their old photos and newspapers along with other items that are now certain to be around for future generations to see.

#### Very high quality postcard protectors

The hard cover postcard protectors are of very high quality for keeping postcards safe and secure. I will certainly order more when needed. These protectors are the perfect size for vintage post cards as well as a variety of items of this size, even recipe cards. Just an excellent product that is very versatile. Thank you for making it so easy to purchase these protectors

#### Great product, very clean and smooth. Best postcard mailers I can find

Great product at an excellent price. These bend without breaking the postcards and are exactly vintage postcard sized. For postcard dealers they are the industry standard. For collectors they will keep your cards clean and well protected without being a hassle to load.

#### Well made, sturdy protective postcard sleeves. Great for anyone that collects postcards for decorating.

These postcard sleeves that I purchased are awesome. Very sturdy and protective, but still offering a clear view of the postcard. The price was consistent with the quality of the product. Now I can decorate with postcards and not worry if they are accidentally knocked over onto the floor. They are also protected from rips and the edges being folded and bent from handling and age. The sleeves end up paying for themselves by saving money from purchasing frames and matting for the postcards. I will purchase this product again and recommend them to others.

erfect

These are perfect, wouldn't even consider buying another brand. I use these specifically to display ACE - ATC cards, and I mount them in the wall with small command strips. minimal glare. Several of my friends also use these for their magic cards.

reat value with this product.

In my opinion these toploaders are the same quality as the standard toploaders BCW sells. Just with a little more buffering. I've only been 1/4 of the way through the case and have had multiple cracked or chipped not so E/U toploaders. In the value side it is a good deal.
